Mathias Wouters

Cloud | DevOps | Linux

Oud-Turnhout, Belgium | +32 491 63 22 34 | matiwouters@gmail.com| [LinkedIn](#) | [Website](#)

EDUCATION

Thomas More   **Geel, Belgium**
Professional Bachelor's of Cloud and Cyber Security   Graduated Jan 2025

PROFESSIONAL EXPERIENCE

Tergos   **Antwerp, Belgium**
Consultant Linux System Engineer   Mar 2025 - Present
- Deploy and automate Linux infrastructure using Ansible, Bash, and Python
- Build and maintain GitLab CI/CD pipelines for system and app deployments
- Support containerized workloads with Docker and Kubernetes

Sopra Steria   **Diegem / Brussels, Belgium**
Cloud & Automation Internship   Sept 2024 - Dec 2024
- Automated Azure platform deployment using Terraform and Azure DevOps
- Developed a root TF module to standardize and accelerate Azure platform deployments
- Improved infrastructure automation workflows, reducing manual setup and errors

PROJECTS

- **Kubernetes Homelab** - Built a self-hosted Kubernetes platform using Proxmox, Terraform, Ansible, GitLab CI/CD, and ArgoCD to simulate a production-grade environment with automated deployments.

SKILLS

- Cloud (Azure, AWS)
- CI/CD (GitLab CI/CD, Azure DevOps)
- Containerization (Docker, Podman)
- Linux (Red Hat, Debian, Ubuntu, …)
- Git (GitLab, GitHub, Azure DevOps)

- IaC (Terraform & Ansible)
- GitOps (ArgoCD)
- Kubernetes
- Programming (Python, Go, Bash)
- Cyber Security
